Decompression sickness (DCS; also known as divers' disease, the bends, aerobullosis, or caisson disease) describes a condition arising from dissolved gases coming out of solution into bubbles inside the body on depressurisation. DCS most commonly refers to problems arising from underwater diving decompression (i.e., during ascent), but may be experienced in other depressurisation events such as ...

Decompression sickness - Wikipedia

This is usually done by trained technical divers, but recreational divers are also encouraged to learn the signal in case they accidentally exceed their no-decompression limit and have to inform fellow divers of the need to make a “deco” stop. “I’m Cold” How to do it: Cross your arms and rub your upper arms with your hands.

Scuba Hand Signals You Need to Remember - AquaViews

Miami is also known as a divers’ paradise. There are over 50 shipwrecks under water, which scuba divers love to explore. Miami is also a great agricultural region. Growing avocados, tomatoes and mangoes – thanks to our fantastic climate. It’s a good agricultural region - yet downtown Miami is also a huge corporate center.
