Fetal Pig Dissection Lab Whitman

Virtual Fetal Pig Dissection. Welcome to the Whitman College Biology Department's Virtual Pig Dissection (VPD)! This site is designed as a supplement to laboratory dissections exploring introductory mammalian anatomy and physiology — it is basic and many details have been omitted for clarity. We hope that it is suitable for AP Biology students or for students of introductory anatomy and physiology at the college level.

Positioning the pig for dissection Place the fetal pig on a dissecting tray ventral (belly) side up. Use two or three rubber bands to tie the right hind leg around the ankle. Run the rubber bands around the underside of the tray and tie the left hind leg. Repeat for the forelegs.

Fetal Pig Dissection Lab - Sam Houston State University

This image shows a cross section of the fetal pig heart, created by cutting through the ventricles of the heart at the level indicated. The ventricles are separated by the interventricular septum. The atria are also separate from one another, so that the de-oxygenated blood of the right chambers is kept separate from the oxygenated blood of the left chambers.

Pig heart cross section | Whitman College

The fetal pig that you will dissect has been injected with a colored latex (rubber) compound. The arteries have been filled with red latex and the veins with blue. An incision was made on the side of the neck to enable the injections. The incision can be seen in the first photograph below.

Fetal Pig Dissection Lab | Biology II Laboratory Manual

Although the size of the fetus pig is smaller than that of the human body the organization of the major organs and the functions of such organs are still the same. This pig dissection is designed to visually show students the different systems inside a pig and, indirectly, their own bodies. Upon dissection they see the heart, the major organ in the circulatory system that pumps the oxygenated blood around the body; the lungs, the major organ in the respiratory system that provides oxygen to ...
