A B C X Y. 6.003 Homework #3 Solutions / Fall 2011. 2 2. Yin-Yang. Determine the system functional. Y. for the following system. X. where. A, B, and. C. represent the system functionals for the boxed subsystems.

6.003 Homework 3 Solutions - MIT OpenCourseWare

These solutions reflect assignments made by Professor Larsen at the University of Michigan during his two-semester course on Quantum Field Theory during the academic year 2003-2004. (As an extra disclaimer to the cautious student: I took this course when I was a second-year undergraduate; but I did preform consistently at the top of the class).
