There are several ways of getting printouts from M3 (Movex) to Excel. You can create queries, use StreamServe XML etc but all of these options lack the flexibility of an easy way to design the layout with the correct formatting and graphics, they also lack the ability for the user to print exactly as they are used to.

Home page - Advenit - StreamServe | M3 Output Management

Anybody who has worked with Infor M3 (or the older Movex versions) knows what a pain output management can be. The basic reports which come out of M3 look like they were created back in the old greenbar paper, dot-matrix printer days (because, well, chances are they were). Getting data out of the system in a manner which users want is often a struggle that leads to developing a separate ...
