Over the past decade the United States has once again truly become a nation of immigrants. The share of the foreign-born population is approaching the historical high, and if both immigrants and their U.S.-born children are taken into account, the foreign-stock population now constitutes a bigger slice of the U.S. population than at any time since the early years of the 20th century.

The sub-Saharan African immigrant population in the United States is a small, but quickly growing, one. Between 2010 and 2018, the size of the sub-Saharan African population increased 52 percent, far outpacing the overall rise in the foreign born. Immigrants coming from the 51 sub-Saharan countries, including Nigeria, Ghana, Ethiopia, and Somalia, are diverse in their origins and socioeconomic ...
